SUBJECT: Leaded gas -

It was an interesting day at the Air Resources Board. Your letter was acknowledged but not read. I quoted the Finnish paper as evidence of an effect associated with "normal" values of lead. In the absence of four liberal members, the reactionaries would have rejected the Tech. Committee recommendations; Haagen-Smit boldly counted proxies of two absent members. Upon

challenge, the Attorney Gen.
deputy ruled that they
could not be counted.
Haagen Smit adjourned the
meeting for lunch. During
lunch, a compromise
was worked out —

TAC Compromise
Rec.

~~Also~~
Jan 71 Regular gas .1 gm Pb/gal 0.5
 Premium 2.5 " " 2.0
 (about the same total
 lead emission either way)
Final
Cutoff
date Jul 76 Jan 77

also John Foreman, Chem. Transportation Committee

I tried to get Jan 76 as
cutoff, but there are serious
problems of materials and
construction times for oil industry
